

21st Century Giving

Foundation for United Nonprofit Distribution of America Inc
-FUND of America- a registered 501c3 organization

RECOGNIZING CORPORATE PHILANTHROPY

OUR MISSION

Organized in 2006, **FUND of America** is a registered IRS 501c3 organization dedicated to its mission of empowering entrepreneurs who lack the resources to start their own business.

We also provide a **patent pending method** of service to businesses which are responsive to public assistance through their local philanthropy. This unique service also allows the **FUND of America** to be self sufficient within the nonprofit community.

Our Service:

Public Projects or Company Giving

Our patent pending method allows the entity to:

- 1) **Reduce out-of-profit** giving without decreasing the actual gift !
- 2) **Increase the giving** amount without reducing profits !
- 3) **Create funds** for public use !

WHAT WE DO

By cooperating with City / County governments, local Associations, and business venues such as Chambers of Commerce, Kiwanis Groups, regional and local banking institutions the **FUND of America can** show socially responsible entities how to **capture dollars that are already being spent**, redirect these dollars, and contribute these dollars to **any** chosen nonprofits or public projects.

These dollars are dollars already being spent.

Contact one of our FUND Advisors today to schedule a presentation which will show:

- ⇒ Cities a way to fund special projects
- ⇒ School Boards a way to fill expense gaps
- ⇒ Churches a way to increase their tithes
- ⇒ Businesses an easier way to continue Giving
- ⇒ Banks another way to respond to community needs
- ⇒ Associations a way to build a general fund
- ⇒ Creative uses of these funds are endless....
